

Anshu Sharma

Emp. Id-1014772

The screenshot shows a web browser window with the URL `localhost:3000`. The page displays a registration form with the following fields and values:

- Name:** Anshu Sharma
- Father's Name:** Pankaj Sharma
- Mother's Name:** Kavita Sharma
- Email:** anshu.sharma@yash.com
- Password:** (masked with dots)
- Contact Number:** (empty field with placeholder text "Enter contact number")

On the left side of the form, there are additional input fields for "Email" (containing "something@idk.com") and "Password" (containing "password!"), along with a "Submit" button.

Below the password field, a red error message states: "Is Not Strong Password".

The screenshot shows the same web browser window, but the page has loaded the "Log In" and "REGISTER USER" sections. The "Log In" section on the left has the following fields and values:

- Email:** dfifdh (highlighted with a red border and a validation error message: "Please include an '@' in the email address. 'dfifdh' is missing an '@'").
- Password:** password!

The "REGISTER USER" section on the right is identical to the one in the first screenshot, with fields for Name, Father's Name, Mother's Name, Email, Password, and Contact Number.
